

YOUR PROJECT IS OUR PRIORITY!

Walker and Associates Broadband Stimulus Strategy

Serving the telecommunications industry for over 40 years, Walker and Associates is the premier provider of technology solutions to service providers nationwide. Proven partnerships with more than 250 leading manufacturers allows Walker to provide customers with a broad range of innovative services and solutions.

Walker and Associates is uniquely positioned to assist customers in their pursuit of stimulus funds, with capabilities ranging from RUS/RDUP approved products to national certifications. Whether you are a rural independent carrier or a municipal energy company, Walker has the products, solutions, experience and expertise that can provide you with the greatest opportunities as you extend your customer reach. Walker is a TL9000 / ISO 9001:2008 quality certified company and a certified women owned corporation.
