

A family of closures designed for your fiber network needs!

FOSC 450 fiber optic splice closures are a family of single-ended closures designed for use most anywhere there are fiber splicing and storage needs. These closures are available in five sizes, each featuring:

- Re-usable compressed gel cable sealing components that accommodate a wide range of cable sizes
- Capability to accommodate a variety of cable styles including loose tube or central core tube cables with single or ribbon fibers
- Hinging splicing trays that provide controlled access to splices and slack storage
- Splice and storage compartments accessible via a removable dome and clamp system
- Thermoplastic outer materials that withstand temperature and contaminate extremes
- Slack storage baskets of various sizes that provide different slack storage scenarios
- Many shared components between closure sizes
- A range of accessories for a variety of outside plant needs

FOSC 450 fiber optic splice closures can be ordered in a variety of configurations to maximize efficiency and minimize up-front cost. While each FOSC 450 closure kit comes outfitted with components needed for installation, a full line of accessories is also available, from splice trays, to multi-cable-per-port sealing kits, to a range of mounting hardware options to meet your splice closure needs.

Walker and Associates is a platinum distribution partner of TE Connectivity. The following chart is a sample of the FOSC 450 fiber optic splice closures and accessories currently available in stock for immediate delivery.
